

CloudWalk

Founded in 2015, CloudWalk Technology is a China-based developer of facial recognition software. It is the primary supplier of facial recognition technology to the Bank of China and Haitong Securities. In 2018, CloudWalk signed a deal to provide the Zimbabwe government with a mass facial recognition system that will monitor all major transportation hubs and create a national facial ID database. The company has been valued at \$3.4 billion in its latest funding round in October 2018.
